EDROLO: Year 12 (2022) Students enrolled in a Science subject

Dear Parents/Caregivers,

Edrolo, is an online learning tool that includes videos and PDF notes for each syllabus point, inquiry question quizzes and unit tests.

Students enrolled in Biology, Chemistry, Investigating Science and Physics will be **required** to purchase a subscription to Edrolo for each science subject they are enrolled in.

The cost of the subscription per student, per subject, per annum is outlined below.

Note that: for Biology, Chemistry and Physics, that **BOTH** Edrolo and the Strive Question Book are **compulsory**. Investigating Science just has Edrolo.

Payment for EDROLO can be made via the QKR app (see instruction sheet). You will need to purchase one Edrolo subscription per subject.

If you have any questions in regard to this, please contact Mrs Lekkas.
